**A Research Enrichment program**

10 December 2022

**REPORT**

A Research Enrichment program was organized on 10 December 2022 at St. Xavier's Institute of Education, Mumbai. The resource person for the program was Dr. Vini Sebastian. There were 49 student teachers who participated in this program. The formal opening introduction to the program was given by Ms. Kalpana Chavan who emphasized the need of strengthening the research culture in a newly approved autonomous college. She provided the participants with the details of the course on Action research. The speaker of the session Dr. Vini was formally introduced by Ms. Nissy Daniel who was one of the participants. The speaker asked the participants to fill up a google form in which there were questionnaires based on the understanding of research. The responses of the questionnaire provided some insights into the presumption of the participants regarding research. The data derived from the google form revealed some of the misconceptions regarding research which was very tactfully clarified by the speaker. Various ideas related to the research were discussed in detail. The resource person very well presented and oriented the participants with the holistic understanding of conducting research. The discussion was fruitful and some major points that were deemed to be important for research was that research follows a systematic methodology where participants required intellect and proper training to become a good researcher as a teacher. The resource person also included the various characteristics, approaches of doing research and types of research. Through the enlightening sessions held the participants felt motivated to carry out the research as a teacher. The vote of thanks was given by Ms. Samantha Vaz who was one of the participants.

**VALUE ADDED PROGRAM: RESEARCH ENRICHMENT PROGRAM**

**Research Enrichment Program?**

The Research Enrichment Program (REP) of SXIE is initiated to induct pre-service teachers into the world of research and equip them for the Action Research Project. It is structured into sessions in such a way that it starts with understanding research in general, then gaining insights into types of research and focussing on Action Research.

The REP has been active for past many years and evolved itself to suit the context of learners and learning situation. The finale of the REP is the Research Forum wherein, the pre-service teachers are ready to take onus of their research work and present it to the house, which consists of SXIE faculty, students, and pre-service teachers of other Colleges of Education.

For the Research Forum, experts and experienced professionals from field of Education, School Education and Teacher Education are invited to educate the faculty and students of emerging trends in research.

⇒ **LEARNING OBJECTIVES**

***Objectives of the Research Enrichment Program***

- To create a program for induction, orientation, and development of cognitive and affective skills towards research.
- To develop amongst the Second Year B.Ed. Students an inclination towards Action research
- To equip the pre-service students with knowledge about the elements of the research work.
- To strengthen the understanding of steps of conducting Action Research Project.
- To make students aware of the research ethics and ethical principles to be followed at every stage.
- To empower the students to present the research work in the research forum
