Introduction

About St. Xavier's Institute of Education

Before the Institute came to be located in the present premises at Churchgate, it started out in the premises of St. Xavier's College in June 1953. In 1953, when the Institute was granted affiliation to Bombay University, Fr. Angel Solagran started the B.Ed. Degree Course. He was the architect and founder of SXIE and SXBA and its first Superior and Principal. In 1955, it took over the Dip. Ed. Course from St. Xavier's College and for a long time was the only college affiliated to the Bombay University to run this course, till its discontinuance by the University in 1977.

The College has completed 68 years as a Teacher Education College par excellence, with alumni ranging from Principals of various colleges, a Vice Chancellor of Mumbai University and Heads of Department of Education. The College aims at imparting Quality Teacher Education and all round development.

It is one of the oldest Government aided Teacher Education College for the course of B.Ed in Mumbai.

Green Practices Audit

Experience about the environmental initiatives by College

- It has been a really good experience till now.
- Something new to learn and understand and adapt and follow it in practice for further
- The program conducted by our college not only made us aware about the initiative of green and clean surrounding but it also helped us to find practical solutions that we could adopt and adapt in your day to day life.
- It importance of waste management and caring for our common home through the UAPs has really made us aware
- I have conducted a action research on environment. Good experience
- The programs conducted were really well presented and it was a good experience. Enriching and self- realisation to protect environment
- It is a very enriching experience since I get a chance to contribute to some extent in order to save our mother earth and care for our common earth
- It helps to become aware of the right practices to handle waste at college and home.
- It was good, a learning experience.
- Good experience.
- Environment awareness programs ,waste management,Webinars are conducted and are really informative.
- It a great experience to participate in such activities and helping towards building a Hope filled future.
- It helps a great way in understanding how we are connected with nature, and our responsibility in saving it.
- Waste Mangement Best practices.
- We were given a task of following eco-friendly practices during our break after 1st sem. I really liked doing those activities and have continued to follow some

of them up till today.

- The programs conducted by our college has always been informative. We get to learn about new ways of how we can contribute to a better environment and a better future.
- The program was very good, information about the nature and participating in the drives
- It has been a thought-provoking experience. It has included me and now even I make use of the waste by turning it into best by making creative stuff out of it
- We get to learn about how we can contribute to saving our environment is the smallest way.
- Well organized, with clear instructions and environmental to participate to the maximum.
- Very enriching and motivating. Making best out of waste program.
- The best practice initiative theme was to adopt some eco friendly alternatives in our day to say lives. It was a great learning experience and made me realise that small initiatives like this need to be take in order to protect our environment.
- It was great experience participating in different programs conducted by SXIE.
- More awareness and effectiveness to using it in real life
- I had participated in poster making. For me, it was a small step towards creating awareness for the protection of environment and it was really a fruitful and enriching experience as it helped me connect with environment and understand it in order to take care of it. I had also participated in a webinar which majorly focussed on the UAP 'care for our earth'and it too was an enlightening experience.
- There were Various Program Conducted For Spreading Awareness about How to Protect Our Mother Nature Earth.
- The experience is really good it helps us learn a lot more.
- Awareness programs conducted by the college were beneficial in terms of bringing in behavioural changes among the staff and the students.

- Very practical and useful activities.
- Very fulfilling and motivating!
- The program has helped me to be more aware about the Environmental Issues.
- I am a part of the waste management team and been a regular member in the different drives conducted.
- It has helped me be more aware of the environment.
- We have been educated about saving the environment through using different methods like using less plastic, using recyclable products and using eco friendly things and also how to dispose water and e waste properly.
- It feels good that my college is into practices that are eco friendly and sustainable.
- The programs are informative, spreads awareness and help us to promote the knowledge to internship schools.
- Our college has been organizing various cleanliness related events throughout the year. During the pandemic, the college gave importance to nature through a workshop which emphasized on care for creation and we also participated in many intercollegiate events.
