PRELUDE TO THE PROGRAM

The e-Learning Designing Course values e-Learning not just as a virtual, distant platform but that which has connectedness to the learner, content, and social presence. We equip our participants with knowledge and skills to connect to students through complete e-Learning package from designing the e-content to e-assessment. The Course fosters on interactive and joyous learning experience. The participants will receive hands-on experience and systematic understanding of the e-tools and e-resources needed for enriching online and blended teaching.

LEARNING OBJECTIVES

At the end of the program, the learner will be able

- To develop a framework for creating quality eLearning designs.
- To create e-Learning designs which promote authentic learning.
- To gain insights into designing an e-Learning course.
- To reflect on the accessibility and bridging digital divide with the effective e-Learning designs.
- To empower participants to be evaluators of e-Learning designs.
- To make quality education reach maximum number of people through the electronic mode.
