### PRELUDE TO THE PROGRAM

The eLearning Designing Course values eLearning not just as a virtual, distant platform but that which has connectedness to the learner, content, and social presence. We equip our participants with knowledge and skills to connect to students through complete eLearning package from designing the e-content to e-assessment. The Course fosters on interactive and joyous learning experience. The participants will receive hands-on experience and systematic understanding of the e-tools and e-resources needed for enriching online and blended teaching.

### LEARNING OBJECTIVES

At the end of the program, the learner will be able

- To develop a framework for creating quality eLearning designs.
- To gain insights into designing an eLearning course.
- To understand about AI tools and its application
- To reflect on the accessibility and bridging digital divide with the effective eLearning designs.
- To empower participants to be evaluators of eLearning designs.
- To make quality education reach maximum number of people through the electronic mode.

### BROADER AREAS OF CURRICULUM

- eLearning Pedagogy
- Framework of eLearning Designing
- Design Thinking approach to eLearning
- Developing Virtual Learning Environment
- eContent development
- Trends in eLearning – Digital and AI tools
- eContent Delivery
- Learner Assessment in eLearning course
- Review of eLearning course

### NOTE

Certificate will be provided by St. Xavier's Institute of Education (Autonomous), Mumbai, on successful completion of the Course.
