About Us

St.Xavier's Institute of Education is the oldest non-government, aided, Christian minority Teacher-Training College for the course of B.Ed., affiliated to the University of Mumbai and recognized by the National Council for Teacher Education (N.C.T.E.). Besides, it has various courses and extension services for students, teachers and the society. St.Xavier's Institute of Education is a Christian minority College, established and administered by the Jesuit Mumbai Province of the Society of Jesus. The College is under the religious jurisdiction of the Roman Catholic Archbishop of Mumbai

The B.Ed Degree Course is a full time two-year Course. It combines theory with practicals and includes regular lectures, practice teaching, lesson observation, community work, internship programme, preparation of instructional materials & teaching aids and project work. Computer literacy, physical fitness, emotional health and the use of educational technology are also included.

The College has completed 64 years as a Teacher Training College par excellence, with alumni ranging from Principals of various colleges, a Vice Chancellor of Mumbai University and Heads of Department of Education. The College aims at imparting Quality Teacher Education and all round development. The College stands for academic excellence and the development of skills, and strives after character formation based on the love of God and the service of man. It seeks to educate citizens distinguished for their integrated development and sincere commitment to God and country, leading lives that are socially meaningful.

About the Short term Course

The National Council of Teacher Education has identified ten teacher competencies for making the teachers professionally content. Every teacher should be a continuous learner in order to advance the quality of our education system, and the quality of students' learning and be a contributing member of the society. To fulfil this, the teacher has to keep developing the relevant competencies and skills. Competencies are generally defined as group of skills that encompass knowledge, abilities, attitudes, motives and temperament that distinguishes excellent performance. The Competence Development Program for teachers of Higher Education proposes to focus on 4 main domains.

- Professional Development Skills,
- Innovations in Assessment,
- Research & Technological Skills Development,
- Community Engagement.

This short term course aims at building these varied skills in the present day teachers of Higher Education.

Objectives of the Program

- To enable participants identify the competencies required for a multi tasking teacher in higher education.
- To enable the participants evolve into being practicing innovators in higher education.
- To enable the participants develop skills in the multi tasking roles played by a teacher in higher education.
- To explore comprehensive assessment skills in higher education.
- To develop in the participants application skills for technology in classrooms.
- To enhance research and technological skills of the participants.
- To enable participants expand their potential as organizational citizens.
- To enable participants acquire hands-on experience on statistical computation skills.
- To encourage the participants examine their role as a professional as well as a member of the community.
- To enable participants network with the community in sensitive and creative ways.
